

Torys LLP is a highly respected international business law firm with 300 legal professionals in our Toronto and New York offices. We are recognized internationally as a frequently recommended law firm in a large number of practice areas. Our Toronto and New York lawyers work together to offer seamless cross-border services to clients on both sides of the U.S.-Canada border and globally.

Programmer/Application Specialist (TORONTO)

We are currently seeking a Programmer/Application Specialist to join our Information Services team. Reporting to the Manager, Application Support, you will have responsibility for the following:

RESPONSIBILITIES:

- Act as primary contact for technical initiatives relating to: Microsoft Office Sharepoint Server, Client Extranets, Web Applications, Windows Workflow Foundation, InfoPath, Applications and database supporting applications.
- Analyze, design and implement functional application data requirements into a database management system as assigned for the data storage and/or data access layer of new in-house development initiatives, enterprise system integration, or as related to the maintenance of existing applications.
- Develop, maintain and improve legacy applications using the standard development tools deployed within the firm.
- Develop both applications and financial system reports using SQL Server Reporting Services and Crystal Reports.
- Develop stored procedures and query optimization for SQL databases.
- Coordinate and implement end user interface customization for enterprise systems.
- Provide 2nd line support to Help Desk.

QUALIFICATIONS:

- Knowledge in Microsoft.NET technologies (.NET Framework versions 1.1, 2.0, 3.0, 3.5) with fluency in both C# and Visual Basic.NET
- Knowledge of Microsoft SharePoint products and technologies (development and administration) as well as 3rd party products for SharePoint (eg. XMLaw, Ontolica and Handshake)

- Extensive experience using industry standard web development and design tools such as: Microsoft Visual Studio (2003, 2005, 2008), Microsoft Expression Web and Microsoft FrontPage 2003 and SharePoint Designer.
- Highly self motivated and directed, with a strong ability to conduct research into messaging systems issues and products as required.
- A diploma / degree in technology or equivalent experience.
- Excellent oral and written communication, organizational, time management, interpersonal, customer relations and creative troubleshooting skills.
- Technical experience in a legal or professional environment would be an asset.
- Ability to effectively prioritize and execute tasks in a high pressure environment
