The Law of Climate Change in Canada

Editor: Dennis Mahony

With contributions from a team of leading lawyers and academics from across Canada and the US

Canada's premier work on climate change law

www.canadalawbook.ca

Learn how international and domestic responses to climate change are dramatically affecting the Canadian legal landscape with Canada's premier text on the subject

The Law of Climate Change in Canada is the first and only resource to provide an in-depth description and analysis of the complex and ever-expanding array of domestic and international laws and initiatives addressing climate change in Canada. It is an essential resource for those developing expertise in climate change law.

Containing comprehensive coverage of provincial and federal legislation and policy developments from across Canada, this work also describes in detail some of the many emerging climate change law sub-disciplines, including:

- carbon finance
- litigation
- real property
- tax
- securities and disclosure

Co-authored by leading lawyers and academics from across North America

The editor and one of the principal authors, Dennis Mahony, is widely regarded as a leading expert in this complex and emerging new field. He has recruited an exceptional group of lawyers and academics from across Canada and the US to ensure unrivalled subject matter breadth and depth.

Organized in distinct parts for easy reference

Part I – General Overview – reviews international laws and agreements and what they mean for Canada and assesses how the dictates of the Constitution may affect climate change initiatives

Part II – Policy and Regulatory Framework – eight chapters set out the current climate change laws, as well as future policy and legal developments, in the provinces and federally

Part III – Emerging Disciplines – discusses some of the rapidly emerging sub-disciplines in this exciting new field, including carbon finance

Part IV – Cross-Border Context – provides an overview of United States climate change related laws and policy developments and their implications for Canada, and covers developing North American cap-and-trade programs such as the Western Climate Initiative

Stay on top of the latest legal developments and manage emerging issues

Table of Contents

Editor — Dennis Mahony

In addition to his responsibilities as Co-Chair of Torys' interdisciplinary Climate Change and Emissions Trading Practice Group, **Dennis Mahony** is the head of Torys' Environmental, Health and Safety Practice Group. He is certified by the Law Society of Upper Canada as a Specialist in Environmental Law, and he is the current Co-Chair of the International Outreach Task Force of the American Bar Association's Section of Environment, Energy and Resources (SEER), and the International Vice-Chair of the Carbon Trading and Energy Finance Committee of SEER. Mr. Mahony is also the Immediate Past Chair of the Canadian Bar Association's National Environmental, Energy and Resources Law Section and former Co-editor-in-Chief of the University of Toronto Faculty of Law Review. He is a past recipient of the Lexpert award for Canada's Top 40 Lawyers Under 40.

Recognized as one of the leading practitioners in Canada, Mr. Mahony's climate change and emissions trading practice involves helping clients navigate through this evolving multi-faceted field, staying abreast of the numerous domestic and international developments in the area, and leading project-specific teams.

Co-authored by an unrivalled team of leading academics and practitioners
